

AURORA Dome Light

Disassembly Instructions

To separate white bezel from window, place a flat tipped screwdriver in the slot indicated on the rear of the product.

Make sure the flat tip of the screwdriver is in contact with the white bezel wall inside the slot.

Gently pry the tip of the screwdriver towards the outside of the product while holding the white bezel

For 2-color operation by rotating bezel:

Your light offers 2 colors of light output to suit any mood.

To select "White" light output, rotate the bezel 30° counter clockwise until the first detent is achieved

To Dim the "White" light output, rotate the bezel and additional 10° counter clockwise and hold until the desired intensity is achieved then release the bezel

To select the second color and dim, follow the exact instructions above, only start by rotating the bezel clockwise

Limited Warranty

The product is warranted to be free from defects in workmanship and materials for a period of one year from the date of original purchase.

Lumitec is not responsible for product failure caused by abuse, neglect, improper installation, or failure in applications other than those for which it was designed, intended, and marketed.

Should your Lumitec product prove defective during the warranty period, promptly notify Lumitec and return product with freight prepaid. Lumitec will, at its option, repair or replace the product or defective portion without charge for parts or labor, or, at Lumitec's option, refund purchase price. Products repaired or replaced under this warranty shall be warranted for the unexpired portion of the warranty applying to the original product(s). No warranty or affirmation of fact, express or implied, other than as set forth in the limited warranty statement above is made or authorized by Lumitec, Inc. Any liability for consequential and incidental damages is expressly disclaimed. Lumitec liability in all events is limited to, and shall not exceed, the purchase price paid.
