

50 AMP CORDSETS

All Marincos 50A **PowerCord Plus™** cordsets are made of the highest quality, marine-grade construction with features you won't find on other power cords:

- Various length and color options for your specific needs
- LED power indicator light – lets you know if you have power
- Watertight molded plug and connector for safety and durability
- Heavy-duty, super flexible 6 gauge conductor cable
- Contoured grip ends with Thumbprint Locator for fast and easy connection
- All models include the Marincos Easy Lock System Ring - a simple 1/8 twist of the ring provides a fast, positive watertight connection
- All models also include a standard threaded ring for hook-up to ordinary threaded inlets
