

## SR-L SERIES | SPREADER

The new RIGID SR-L Series Spreader light provides an easy way to add convenient area lighting and style to any vehicle. This spreader provides a broad 120° beam to illuminate wide areas around any vehicle. The SR-L Series Spreader also offers a stylish halo to provide accent lighting that adds a custom look to any vehicle build. The halo accent lighting is available in one of four colors: red, blue, amber, or white. Use the flying leads wiring to wire the SR-L Series Spreader light directly into your vehicle's electrical system or purchase the RIGID wiring harness separately. The SR-L Series Spreader offers the same legendary RIGID build quality as the rest of the company's products, from the high-grade aluminum housing to the impact resistant polycarbonate lens. Packed with power and style, the SR-L Series makes it easier than ever to Own the Night.
