## QUICK TIPS FOR USING THE SUPA TSUNAMI PUMP (W709-SUPA)

**STEP 1:** First put the Supa Tsunami Pump over the side of the boat under the water.

**STEP 2:** Then counter twist the end of the hose before sticking it in the quick connect with cap and chain on the top of the Fat Sac so it twists back and holds itself in the groove.

**STEP 3:** Plug the Supa Tsunami Pump into the cigarette lighter accessory plug.

**NOTE:** To empty do the same thing except the end of the hose goes over the side of the boat first and pump goes on the quick connect with cap and chain on top of the Fat Sac. Then push the pump down into the Sac to prime the Pump.

## INSTRUCTIONS FOR THE NEW FAT SAC JUICED EDITION SUPA TSUNAMI QUICK CONNECT PUMP SYSTEM
