New!

DuraLED 50 Low Profile

With increased light output and spread!

New generation DuraLED 50LP offers increased light output in an ultra-low profile housing.

DuraLED 50LP lamps are an extremely powerful source of white light and offer a safe, energy efficient and reliable alternative to incandescent and fluorescent lighting within an easy to install, surface mount design.

These high tech, low profile lamps are available in two light patterns, Spread and Wide Spread, to suit a variety of applications including engine rooms, storage lockers, lazarettes and other heavy duty applications where reliability cannot be compromised. Each lamp is completely sealed, UV, impact and shock resistant ensuring an ultra-long service life.

Multivolt™ circuitry provides constant illumination and circuit protection from 9-33V DC, even under severe voltage fluctuations. DuraLED 50LP lamps also carry ISO Ignition Protection approval for safe and certified installation when lamps are located near flammable gas sources.

Hella marine DuraLED 50LP lamps offer class leading energy efficiency, unmatched durability and are supported with a 5 year warranty for a total 'fit and forget' solution and complete peace of mind.

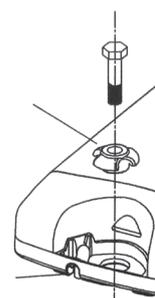

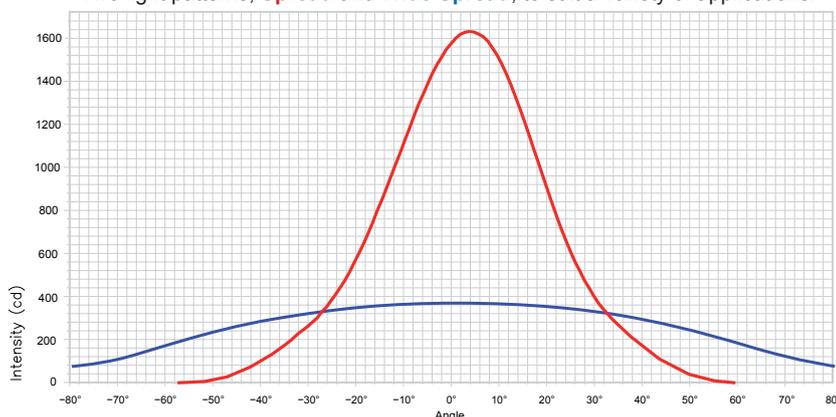

- Intense white light
- Increased output 850 Lumen
- Wider spread light pattern
- Low power consumption (<12W)
- Multivolt™ 9-33V DC
- Ultra long service life
- Completely sealed IP67
- Shock and vibration resistant
- 5 year warranty

New 25mm low profile design

Two light patterns, **Spread** and **Wide Spread**, to suit a variety of applications.

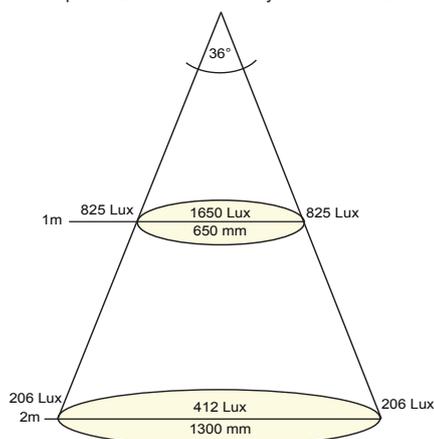

Completely sealed unit with robust bush mount.

Super Slim DuraLED 50LP Lamps. Highly efficient and durable.

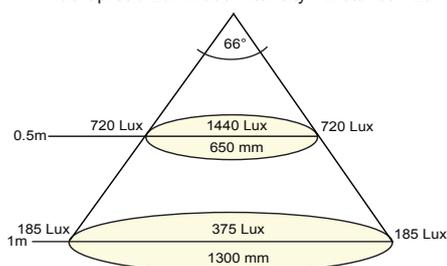

Lens Material	UV resistant, enhanced impact acrylic
Colour Temperature	5000K (White)
Cable	Pre-wired with 2.5m of tinned marine cable
Operating Voltage	9-33V DC
Power Consumption	White LEDs <12.0W
Degree of Protection	Completely Sealed IP 67
Approvals	ISO 8846 (Ignition Protection)
Installation	Surface Mount
Weight	380g (including cable)

Spread Luminous Intensity - Distance / Lux

Wide Spread Luminous Intensity - Distance / Lux

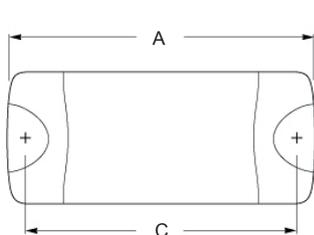

Spread lamps offer higher light intensity while the Wide Spread lens is better for applications with confined spaces or that require extra wide spread of light.

DuraLED 50LP Lamps

Lens Options	LED Colour	9-33V Part Number
Spread	White (5000K)	2JA 980 629-001
Wide Spread	White (5000K)	2JA 980 629-501

Dimensions:
 A = 222 mm / 8.74"
 B = 96 mm / 3.78"
 C = 193 mm / 7.60"
 D = 25 mm / 0.98"
